Germany – Transformer substation – 2 GW HVDC Offshore Platform and Converter System (2 GW HVDC System) for the NorthSeaConnector 1 Project (Yard Scope)

OJ S 180/2026 17/09/2026

Contract or concession award notice – standard regime

Works

1. Buyer

1.1. Buyer

Official name: 50Hertz Transmission GmbH

Email: Matthiaswolfgang.schaeuble@50Hertz.com

Activity of the contracting entity: Electricity-related activities

1.1. Buyer

Official name: 50Hertz Offshore GmbH

Email: benjamin.kirchner@50hertz.com

Activity of the contracting entity: Electricity-related activities

2. Procedure

2.1. Procedure

Title: 2 GW HVDC Offshore Platform and Converter System (2 GW HVDC System) for the NorthSeaConnector 1 Project (Yard Scope)

Description: The overall scope of supply and services of the project shall be for the turnkey delivery of the 2 GW offshore converter system comprises to engineer, procure, construct /manufacture, transport to offshore, install, commission onshore/offshore and test as an EPCI Contractor the offshore converter platform in the area N-11.1 as well as an onshore converter at a 50Hertz substation. The scope consists of the respective complete substructure and topside of the offshore platform including transport & installation and the civil works of the onshore substation including its hvdc systems, both with the corresponding electrical equipment, non-electrical equipment as well as other reasonably required scope and services for a fully functional 2 GW converter system ready for operation and connection to the German HV grid. Note: The scope of this award is limited to the yard scope (offshore converter station, including the jacket substructure, topside, auxiliary and ancillary systems, as well as the transport and installation) of the offshore platform and jacket substructure. The onshore converter station, including all associated civil works and HVDC electrical equipment for the onshore station and the offshore platform remains unchanged since the initial award in June 2024.

Procedure identifier: d4b81b89-a3f0-42b6-80a0-dacadc2244ee

Type of procedure: Negotiated without prior call for competition

2.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45232221 Transformer substation

Additional classification (cpv): 31170000 Transformers, 31200000 Electricity distribution and control apparatus, 45232220 Substation construction work, 45317200 Electrical installation

work of transformers, 60651400 Heavy-lift ship services, 60651600 Offshore supply ship services, 71248000 Supervision of project and documentation, 71541000 Construction project management services

2.1.2. Place of performance

Country subdivision (NUTS): Ludwigslust-Parchim (DE800)

Country: Germany

Additional information: AWZ, area N-11.1 in the German North Sea

2.1.3. Value

Estimated value excluding VAT: 1,00 EUR

2.1.4. General information

Additional information: For reasons of confidentiality of business secrets, the contract value will not be published for the moment. A standard market price in the nine-figure range was agreed.

Legal basis:

Directive 2014/25/EU

5. Lot

5.1. Lot: LOT-0000

Title: 2 GW HVDC Offshore Platform and Converter System (2 GW HVDC System) for the NSC1 Project

Description: The overall scope of supply and services of the project shall be for the turnkey delivery of the 2 GW offshore converter system comprises to engineer, procure, construct /manufacture, transport to offshore, install, commission onshore/offshore and test as an EPCI Contractor the offshore converter platform in the area N-11.1 as well as an onshore converter at a 50Hertz substation. The scope consists of the respective complete substructure and topside of the offshore platform including transport & installation and the civil works of the onshore substation including its hvdc systems, both with the corresponding electrical equipment, non-electrical equipment as well as other reasonably required scope and services for a fully functional 2 GW converter system ready for operation and connection to the German HV grid. Note: The scope of this award is limited to the offshore converter station, including the jacket substructure, topside, auxiliary and ancillary systems, as well as the transport and installation of the offshore platform and jacket substructure. The onshore converter station, including all associated civil works and HVDC electrical equipment remains unchanged since the initial award in June 2024.

Internal identifier: EPCI NSC 1 - Lot1

5.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45232221 Transformer substation

Additional classification (cpv): 31170000 Transformers, 31200000 Electricity distribution and control apparatus, 45232220 Substation construction work, 45317200 Electrical installation work of transformers, 60651400 Heavy-lift ship services, 60651600 Offshore supply ship services, 71248000 Supervision of project and documentation, 71541000 Construction project management services

5.1.2. Place of performance

Country subdivision (NUTS): Ludwigslust-Parchim (DE800)

Country: Germany

Additional information: AWZ, area e N-11.2 in the German North Sea

5.1.5. Value

Estimated value excluding VAT: 1,00 EUR

5.1.6. General information

The procurement is covered by the Government Procurement Agreement (GPA): no

5.1.7. Strategic procurement

Aim of strategic procurement: Reduction of environmental impacts

Description: The project contributes to the German Grid Development Plan by enabling offshore wind integration and supporting renewable energy targets. HSE requirements and standards are incorporated into the procurement to ensure safe and sustainable project delivery.

Approach to reducing environmental impacts: Climate change adaptation

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Vergabekammer des Landes Berlin

Information about review deadlines: 30 Tage ab Veröffentlichung dieser Bekanntmachung.

Siehe Paragraphen 135, 160 GWB

Organisation providing additional information about the procurement procedure: 50Hertz Transmission GmbH

6. Results

Value of all contracts awarded in this notice: 1,00 EUR

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: The underlying offshore grid connection system NorthSeaConnector 1 Project must be integrated into a Multi-Terminal-Hub and must be interoperable with the converters already being implemented by Tennet TSO GmbH (TTG). In order to guarantee the connectivity of the HVDC connection via the DC hub Heide, which is bindingly specified in the confirmed NEP 2037/2045, and the interoperability of the 50Hertz components in this "closed system", a technically compatible converter pair must be procured, as was procured by TTG from Siemens Energy Global GmbH & Co. KG in April 2023. For market and technical reasons, the offshore platform, in which the offshore converter will be installed, is integral part of the EPCI contract. The EPCI contract for the yard scope was therefore concluded with NSORe NSC 1 GmbH. The HVDC scope remains with Siemens Energy Global GmbH & Co. KG.. Siemens Energy Global GmbH & Co. KG and NSORe NSC 1 GmbH form a consortium. For reasons of confidentiality of business secrets, the contract value will not be published for the moment. A standard market price in the nine-figure range was agreed.

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Name of the tendering party: Bietergemeinschaft Siemens Energy Global GmbH & Co. KG und NSORe NSC 1 GmbH

Leader of tendering party: Siemens Energy Global GmbH & Co. KG

Official name: NSORe NSC 1 GmbH

Tender:

Tender identifier: Offer-1

Identifier of lot or group of lots: LOT-0000

Value of the tender: 1,00 EUR

The tender is a variant: no

Subcontracting: Yes

Subcontracting value is known: no

Subcontracting percentage is known: no

Contract information:

Identifier of the contract: Contract-01

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 1

Type of received submissions: Tenders from micro, small or medium tenderers

Number of tenders or requests to participate received: 0

Type of received submissions: Tenders from tenderers registered in other European Economic Area countries than the country of the buyer

Number of tenders or requests to participate received: 0

Type of received submissions: Tenders from tenders registered in countries outside of the European Economic Area

Number of tenders or requests to participate received: 0

Type of received submissions: Tenders submitted electronically

Number of tenders or requests to participate received: 1
